Mine Workers and Citizens League Select Candidates For Municipal Elections

Keen Interest Exists in Forthcoming Contest Between Moderates and Communists

The consensus of opinion expressed at the meeting called by the Citizens League on Monday evening, Jan. 16, was that in order to combat the "Reds" in the municipal elections for council and school trustees on Feb. 13, the local union and the League should combine in supporting candidates nominated jointly by the two organizations.

At a meeting held in the K. P. hall on Sunday, the union nominated for the council Andrew Harry, Wm. Chapman and W. Lees; for the school board, George Hope, Dave Holley, Harold Chamberlain and Geo. Evans.

The Citizens League meeting considered that in order to be effective the league should nominate one candidate for the council, and the union withdraw one of their nominees, and nominate two for the school board, leaving the union to withdraw two. A committee of the League will try to arrange a meeting with the union to urge co-operation between the two organizations in support of candidates thus presenting a solid slate to combat the Communist candidates.

The League meeting named W. L. Borrows, whose term expires, for re-

election to the council, and Arthur Reid Sr. and James Allan for the school board. Mr. Allan is the present chairman, who has capably presided for the past two years. Mr. Reid is a former commissioner of the city of Lethbridge, and is now plant engineer at McGillivray Co.

Mr. Morrison, chairman of the meeting, urged all who were in support of law and order to vote solidly for the candidates endorsed by both organizations, and thereby help to maintain British traditions against the campaign of conspiracy and revolution.

The committee appointed to meet the union includes A. M. Morrison, president of the League; Mayor Pattinson and H. T. Halliwell. Mr. Morrison asked that all who are in support of the League and local union candidates volunteer for election campaign work, as help will be required to man the polling booths and to get out the vote and explain the objects of the campaign to offset the "Red" propaganda. It was pointed out that in order to be most effective, individual differences of opinion on merits of possible candidates should be sunk in the effort to accomplish the object desired, and establish the strongest possible organization of co-operation to carry on the election campaign.

Coleman School District Notice of Annual Meeting

PUBLIC NOTICE is hereby given that a meeting of the ratepayers of Coleman School District No. 1216, will be held in the Council Chamber, Town of Coleman, on Friday, January 27, 1933, at 8 o'clock p. m., for the purpose of receiving the auditor's report of the finances of the school district up to the preceding 31st day of December, and for the purpose of receiving the reports of the chairman of the various committees of the trustees.

Dated at Coleman, Alberta, this 18th day of January, 1933.

JAMES FORD,
Secretary-Treasurer.

Town Council Meeting Hears Financial Report For Year of 1932

Secretary Commended by Council for Efficient Work During Difficult Year.

A regular meeting of the town council was held on Jan. 10th, there being present Mayor Pattinson, G. Borrows, Jones, Rastion, Antrobus and Jackson.

The regular routine business, such as reading of minutes, correspondence etc., being disposed of, J. Ford, town clerk, was appointed returning officer for the municipal elections to take place on Feb. 13.

The usual 8 per cent penalty which automatically goes on to unpaid taxes at Jan. 1 of each year was deferred for the purpose of giving those who have not yet paid an opportunity to escape the penalty.

The report of the auditor, E. D. Battrum of Calgary, was received, and the secretary was instructed to have same published in The Journal for the benefit of the ratepayers who desire to acquaint themselves with the administration of town finances.

A vote of thanks was accorded by the council to Mr. Ford for the efficient manner in which he had carried on his duties during the year, and the auditor's report also commended him for the business-like way in which the books were kept.

A request for a street light on Third street to be moved so that it will give more light where needed than in its present position, was granted.

A delegation from the unemployed interviewed the council, and Mayor Pattinson pointed out to them the conditions under which relief will be granted, for which able-bodied men must give some work in return.

"Reds" Propose Firing Police and Bankrupting Town

In the Palace theatre on Sunday Jan. 8, a meeting of the W.U.L. was addressed by a man named Leniham who advocated the withdrawal of all police forces and giving the money expended for police protection to the unemployed. Rock Sudworth advocated the workers getting control of the town council and school board and bankrupting the town, then compelling the government to take it over and accede to their demands. Geo. Gaseoff was chairman.

About 100 men, women and children were present. Harvey Murphy has been in the Pass towns during the past two weeks, also in Calgary.

SNOOKER AND BILLIARD TOURNAMENT RESULTS AT RIALTO

The Christmas season's tournament proved very interesting and productive of keen competition.

In snooker George Dickson was 1st; Angelo Gentile 2nd; the latter also won the high break in snooker.

In billiards, Danny McCallum was 1st; George Evans 2nd; Tom Rose high break.

About 38 were entered in billiards and 37 in snooker, and some very good games were played at this popular billiard and pool room.

Kimberley Dynamiters Will Play Return Exhibition Game Here Friday Night

Dynamiters in an Exhibition Game Against Canadians Promise to Be Big Drawing Card.

Two weeks ago the Canadians played an exhibition game at Kimberley with a weakened team, and took the count. Commenting on the game, the Kimberley Courier stated: "It was a good fast game, played in the best of spirit, and Coleman are to be congratulated on putting up a game fight. The ice was in good condition and the enthusiasm of the fans was most marked."

With fast ice here tomorrow night and with the advantage of playing on home ice, Canadians are confident of retrieving their defeat at Kimberley. The mining town sextette are coming down full strength, with the following line-up: Goal, Hutton; defence, Koyak, Botterell; forwards, Mackie, Kier, Puffy Kemp, Art Mackie, Scott McQuaiden, Dicken. They are picked men from the western provinces.

Coleman's lineup will be: Kanick; Johnson, Kwasney; Lilya, Fraser and Jenkins; Kapalka, Joyce, Oliva and Kobica.

In order to give the public an opportunity to see the game without extra cost, the usual admission prices of 35c for adults and 15c for children will be in force. The face-off is timed for 8 p.m. Be on time if you want to see a real thrilling fast-stepping game that will quicken your pulse and keep you on your toes.

STANDING OF PLAYERS

In Crow League games, the standing of Coleman Canadians players is as follows:

W. Fraser	18 points
J. Joyce	11 points
J. Jenkins	11 points
V. Lilya	4 points
R. Johnson	4 points
K. Kobica	3 points
P. Oliva	3 points
R. Kwasney	2 points
Leading goals scored, Fraser 10; leading assists, W. Fraser 8.	

THIS SOUNDS PLEASANT FROM BLAIRMORE.

"Skating rings around the Blairmore Bears for three whole periods, Coleman Canadians dispelled any doubts that might have been in the minds of fans, who were the best team when they defeated Blairmore on their home ice by a score of 6-2. Blairmore had no excuses to offer as they were in full strength, and the defeat was a disappointment to the largest number of fans that have turned out to a hockey game this season. Coleman were good for their win as they outskated and outplayed Blairmore in every department of the game." Blairmore correspondent in Lethbridge Herald on Jan. 6th game.

Coleman Canadians Winning Streak Halted by Blairmore--5-2 Monday

First Period Disaster for Canadians --"Billy" Fraser Bright Spot in Game, Scoring Twice.

Coleman Canadians took the short end of a 5-2 score in a Crow League game on Coleman ice against Blairmore Bears. Scoring four in the first period to Coleman's one, the lead could not be overtaken by their rivals for Crow League honors. This was the fourth game between these teams, each having won two, with the final between them in the schedule to be played here next Monday.

Fraser of Coleman opened the scoring three minutes after the face-off. Two minutes after McKay equalized on a solo for Blairmore; another four minutes Martini added to Blairmore on a rebound from P. Anderson; one minute later Johnson on a rebound from Oakes and then McKay from Johnson, giving a three-goal lead at the end of the first. Cecchini was penalized twice for Blairmore, and Joyce of Coleman once.

The second period Percy Anderson netted Blairmore's fifth goal, followed shortly after by Fraser, speedy centre for Coleman. Penalties were incurred by Lilya for Coleman and Evans and Martini for Blairmore. The period ended 5-2.

In the third Coleman showed the best form of the game, but failed to score, Blairmore playing a defensive game to hold their lead. Good combination was seen by Fraser, Lilya and Jenkins on Coleman's forward line, Kwasney and Johnson putting up good defence. Johnson was forced to leave the ice, losing two teeth in a collision which momentarily dazed him. Penalties were handed to Evans and Jenkins and Joyce of Coleman. The line-up was:

Blairmore: Van Duren; Evans and Johnson; Oakes, McKay, Tony Vejpreva; Martini, P. Anderson, Vangotsinoven, Cecchini.

Coleman: Kanick; Johnson, Kwasney; Lilya, Fraser, Jenkins; Kapalka, Joyce, Oliva, Kobica.

Referee, George Graham; judge of play Kemp.

Albert F. Short is with the curlers at Fernie bonspiel.

IMPORTANT NOTICE RE PAYMENT OF TAXES

Town taxes for 1932 paid between now and Feb. 15, will be accepted at net amount, without the usual 5 per cent. penalty added after Dec. 31.

PAY YOUR TAXES NOW AND SAVE

JAMES FORD, Secretary-Treasurer.

BEST FOR ADULTS, TOO

Many Are Injured In Election Rally Battle In Ireland

Dublin, Irish Free State.—Thirty persons were injured, among them a woman and a child, when fighting occurred at a Cumanna na nGaedheal election rally in O'Connell Street today.

There was some firing of revolvers, but so far as could be learned no one was injured by gunfire.

Crowds sympathetic to President Eamon de Valera drowned out the voices of the speakers during periods in which there was no violence, with a concerted singing of "Daisy, Give Me Your Answer, Dear," a popular song which is climaxed with the lines about a honeymoon "on a bicycle built for two."

General Richard Mulcahy, a member of the dail eireann, was shouted down and had to leave the platform.

Police had difficulty protecting Mrs. Collins O'Driscoll, sister of the late Michael Collins, former minister of finance in the dail cabinet, from a rush by the crowd when she arose to speak.

The Army Comrades Association fought hand-in-hand with the police to quell the disturbance, while General Mulcahy and the other speakers carried on against great odds.

Rocks were thrown and loud speakers were torn down. The speakers were heckled mercilessly by crowds singing pro-De Valera songs. At times there was a ring of the speakers' platform itself being overwhelmed, but each time the police were able to beat back the crowd with their clubs.

Police reinforcements were rushed to the scene, but even then they were unable to cope with the situation and the disturbance continued until the meeting had run its course. There appeared to have been no serious injuries.

A concerted attack was made upon the speakers as they left O'Connell Street. Bricks, eggs and stones were thrown and the police were able to save them from injury only by the liberal use of their batons.

A crowd later gathered in front of the headquarters of the Army Comrades' Association and a free-for-all battle developed in which several persons were injured and windows in the building broken.

It was learned that 300 police were on duty during the disturbance and that they were reinforced by 700 of the Army Comrades' Association—known as the "White Army."

The members of the Comrades' Association had been specially mobilized to help put down the disorder. The crowd was estimated at 15,000 to 25,000.

Gets Five Years

Calgary, Alberta.—Roman Jugwicz 22-year-old Calgary youth, was sentenced to five years in penitentiary by Magistrate H. H. Scott, when charged with the armed robbery of the Third Street West branch of the Canadian Bank of Commerce.

Sudden Death Of Calvin Coolidge, Former United States President

Northampton, Mass.—Calvin Coolidge, 30th president of the United States, died suddenly January 5th. He was 60 years old on July 4th.

Returning from a shopping tour, Mrs. Coolidge found the body of her husband on the bed in a room at the Beeches, the estate to which he retired at the conclusion of his career at the national capital.

This death was wholly unexpected, although for the past three weeks Mr. Coolidge had complained of indigestion. Doctors said death was due to heart failure.

Born in a little house which is now the general store at Plymouth, Vt., Coolidge had made this city his home since his graduation from Amherst college in 1885.

Retirement from the presidency brought few changes to Mr. Coolidge's mode of life. While, with the exception of two addresses delivered on behalf of Mr. Hoover in the recent campaign he eschewed direct politics, he did write numerous magazine articles on political or semi-political subjects. Born and reared on a Vermont farm, Calvin Coolidge was destined

China-Japanese Conflict

Estimated Recent Fighting Resulted In Death Of 1700 Chinese Troops

Peiping, China.—Marshal Chang Hsiao-Liang informed Japanese authorities in a blunt letter that he refused to accept responsibility for the battle of Shanghai and did not care to have any dealing with the Japanese concerning it.

The marshal served notice on General Koto, Naitamura, Japanese commander in north China, that further communications should be addressed to the Chinese Nationalist Government at Nanking. He placed blame for the Shanghai incident on the Japanese themselves.

Meanwhile it was understood the Chinese were getting ready for another battle in their positions southwest of Shanghai to which they retreated when the gateway city to north China and the province of Jehol was occupied by the Japanese after hard fighting.

Chinese officials have estimated the total Chinese military casualties in the Shanghai fighting at 1,700, and they said the civilian casualties were extremely heavy.

One entire battalion of Chinese troops was reported to have been wiped out. Civilian deaths were accounted for by the intense bombardment from land, sea and air. British authorities took precautions to safeguard British interests in the area of conflict.

Unemployment Insurance

Ontario Government Views Proposal With Sympathy

Toronto, Ont.—The Ontario Government views the proposal of general unemployment insurance with sympathy and will seek to have it in operation at the earliest possible moment, Premier George S. Henry told a delegation of the Ontario executive of the trades and labor congress.

The delegation was accompanied by Tom Moore to Ottawa, president of the Trades and Labor Congress of Canada, and a request that the Ontario Government lead in advocating unemployment insurance at the forthcoming Dominion-Provincial Conference in Ottawa was the feature of the proposals advocated by the delegation.

Another request that Labor be represented at the conference, was a matter for the Dominion Government, Mr. Henry said.

Other requests were: Amendments to the Liquor Control Act providing for beer-by-the-glass.

Prof. Picard Sails

Haute, France.—Prof. Auguste Picard, explorer of the stratosphere has sailed for Canada and United States. After a lecture tour he is expected to investigate possibilities of a flight to the stratosphere from Hudson Bay region.

French Vessel Wrecked

Luxurious Liner "Attila" Destroyed By Fire In English Channel

Cherbourg, France. The luxurious liner "Attila" was wrecked by a furious fire in the English Channel while proceeding to Havre for overhauling without passengers, with the loss of lives placed at 17.

Latest available figures have showed that 228 persons were aboard of whom 211 arrived here during the night on four rescue vessels. The victims either suffocated at their posts of duty or drowned when a life-boat upset.

All those rescued were utterly exhausted when they were brought here. All their possession had been lost.

The captain of the liner was the last to leave her. He leaped into the sea and was picked up by a small boat from the steamer "Achilles," which, with the "Turin" and the "Ford Castle," brought the survivors to Cherbourg.

Men in the boiler rooms were burned to death, the captain told port authorities, and others were overcome by smoke before they could escape. He explained no wireless distress messages were sent out because the operator was asphyxiated at his post.

Study Wheat Situation

Groups Being Organized In Saskatchewan For This Purpose

Prince Albert, Sask.—After being addressed by C. H. Puckering, who spoke on behalf of the Regina World Grain Show, the local board of trade decided to form a group which will make a study of the wheat situation and prepare recommendations as to how it is believed the ills of the industry can best be cured. Thirty such groups have now been organized in Saskatchewan.

Mr. Puckering declared other countries are organizing upon similar lines, the purpose being to formulate plans for action which will be considered at the conference to be held in conjunction with the grain exhibition in the capital city next year. Mr. Puckering expressed the belief it is up to Saskatchewan to impress upon representatives of European countries that it would be best for them to grow other crops and instead of producing their own wheat to buy the best bread wheat available, which Canada can supply.

Many Staking Claims

Hundreds Seeking Wealth In Manitoba's New Mineral Fields

Winnipeg, Man.—Manitoba's newest mineral fields, God's Lake and Island Lake, 350 miles northwest of Winnipeg, where hundreds of prospectors seek wealth this winter, has attracted attention anew.

Two thousand claims have been staked in the two mineral areas and the rush to record these has swamped the Manitoba mines branch offices. It has been announced a re survey would be made immediately and the tangle straightened out.

Form Of Address

Bismarck, N.D.—The question as to whether members of the legislature should address the woman Speaker of the House as Mr. Speaker, Mrs. Speaker or Madame Speaker is a puzzle no longer. Mrs. Mina Craig, newly elected Speaker, decided she liked "Madame Speaker" best.

M. BONCOUR PUTS HIS HOUSE IN ORDER

M. Paul Boncour, the new Prime Minister of France, was caught by our photographer, leaving the Elyses, Paris, after forming the Cabinet which was accepted by the Chamber of Deputies after M. Herriot had resigned and M. Chaumets had failed to form a government.

KING CELEBRATES

King Alexander of Yugoslavia may be harassed by various sections of his country, but the nation united this month to share with him in festivities on his birthday. Even in London, special services were held in the Russian Churches to celebrate the happy anniversary.

Heirs Claim Estate

Seven Persons Bring Suit Against University Of Alberta

Calgary, Alberta.—Governors of the University of Alberta have been named defendants in a suit instituted by seven persons resident in England to recover an Alberta estate assigned to the University under the Ultimate Heirs Act.

The plaintiffs are Ellen Machley, William E. Sirrell, Arthur Bartlett, Catherine Sirrell, Arthur James Sirrell, John Sirrell and Evelyn Bray, all of Bromyard, Herefordshire, England, who claim Henry Sirrell, bachelor, who died intestate in December, 1929, was their brother.

When Henry Sirrell died at his home at Del Bonita, Alberta, he left an estate worth \$30,000. Efforts of a trust company, placed in charge, to ascertain whereabouts of relatives failed, and the estate was awarded the university. The plaintiffs claim they were unaware of their brother's death until recently, and now ask the estate be awarded them jointly.

Romanoff Treasures

Famous Russian Collection Is Shown In New York

New York.—Treasures from the Romanoff palaces—\$15,000 jeweled Easter eggs, a "quill pen" fashioned of gold diamonds, emeralds and 2,200 pearls, lavish dinner services and lions 400 years old were placed on exhibit in a Fifth Avenue department store.

They formed a \$1,000,000 collection acquired by the three Hammer brothers, Armand, Victor and Harry, during the nine years they operated various concessions under the Soviet government, including a monopoly on pencils and stationery. By selling their American automobile factory there to the Soviets they were permitted to take the treasures out of the country.

Handicaps Stressed

Victoria, B.C.—Handicaps under which Canadian industry would rest if a scheme of state unemployment insurance were adopted in this country and not elsewhere on the continent, was stressed before Premier S. F. Tolmie and members of the government by a delegation of British Columbia business men.

British And U. S. Observers Asked To Watch Situation In China

Conference Will Discuss Unemployment Insurance

Clerks Working Day and Night To Have Information Ready

Ottawa, Ont.—Unemployment insurance will be one of several major questions discussed at the Dominion-Provincial Conference January 17.

The customary pre-conference sittings held around the Dominion's views but Premier R. B. Bennett has stated in the House of Commons he favored a contributory system of unemployment insurance and pledged his government to enact a scheme of that type.

Premier George S. Henry at Toronto told a Labor delegation his ministry favored an unemployment scheme and would propose at the conference the Dominion assume all government costs.

Working day and night, a corps of clerks in the Dominion Bureau of Statistics has been correlating information on employment conditions gathered at the 1931 census. Upon this data will be based the actuarial foundation for any insurance scheme.

Premier Bennett has stated many times he will not countenance a non-contributory insurance plan. He favors a scheme under which the employers, the employees and the state contribute to the general fund.

Winnipeg, Man.—Adoption of Dominion-wide contributory unemployment insurance is favored by the government of Manitoba.

Criticizes Rail Officials

Says Executives Are Asleep At The Switch

Toronto, Ont.—Charging railroad executives were "asleep at the switch," Samuel Hisey, Toronto, addressed the convention of the Canadian Fruit and Vegetable Jobbers' Association.

"Instead of holding high-bait banquets in the cities for people who never shipped a bag of potatoes in their lives, the railroads should banquet the farmer out in the country and tell him how much more cheaply his produce can be shipped by rail than by truck," he declared.

"Farmers aren't familiar with their freight rates. They don't seem to know that within a radius of 75 to 100 miles of Toronto the railroad will ship cattle at \$1.50 a head that the truck brings in for \$4," said Mr. Hisey.

Submerged Continent

Calcutta, India.—An expedition to search for traces of a submerged continent that once may have linked India and Africa will leave here for Aden next August, under command of Colonel R. B. Seymour Swell, director of zoological survey in India.

Cosgrave Supporter Wants Union Of North And South Ireland

Dublin, Irish Free State.—Political circles were astounded when Richard Mulcahy, former minister of defence and front bench member of William T. Cosgrave's Cumanna na nGaedheal, voiced a demand for immediate union of the Free State and Northern Ireland.

The only alternative to union, Mr. Mulcahy said, was "a 26-country republic and endless ill-will."

In a fiery election address he blamed Great Britain for partition of Ireland and denounced the oath of allegiance to the king.

Partisans expressed the fear his stand might split the ranks of Mr. Cosgrave's party and give added strength to President Eamon de Valera's republican forces in the whirlwind campaign preceding January 24, polling day.

"Too much respect for British sentiment," Mr. Mulcahy said, "has helped make the 1921 treaty under which the Free State was constituted" unworkable by inclusion in it of the oath of allegiance and by a long struggle to keep up antiquated legalisms like the privy council.

"The only alternative to a 26-country republic and endless ill-will is union of Ireland."

Shanghai, China. The foreign office indicated that in view of conflicting Chinese and Japanese claims concerning the Japanese occupation of Shanghai and the apparently short-lived hostilities near its sister city of Chiungwangto, the national government has asked the British and United States legations to send military observers there "in order to obtain the facts."

The national government also said that the British charge d'affaires had directed the attention of both the Chinese and Japanese governments to the British interests in Chiungwangto, the port city a few miles from Shanghai, which earlier this week was taken by the Japanese.

The 40-year-old post-general Tsai T'ing-kai, who became the hero of China a year ago, when his 19th route army put up a dogged defence against the Japanese in the long battle of Shanghai, appealed today for a chance to lead his men against his old enemy in the Shanghai area.

General Tsai offered to take to the field as Chinese leader as newspapers were bitterly criticizing Marshal Chang Hsiao-Liang, the military leader charged with guarding the northern frontier, on the ground he had failed to meet the Shanghai war emergency.

Gets Temporary Credit

Calgary Obtains Funds To Carry On In Financial Crisis

Calgary, Alberta. Guarantee of temporary credit to maintain city services was obtained by the city of Calgary from the Bank of Montreal and negotiations were under way towards establishing a definite credit at the bank to aid the city in its financial crisis.

Statements by Mayor Andy Davidson and H. C. Francis, local manager of the Bank of Montreal, made it clear the bank was providing only sufficient funds to meet the maturing obligations of the city. Negotiations, however, had reached such a stage that hope of ending the impasse regarding the definite amount of credit was high.

Would Reduce Dollar Value

Senator Borah Wants U.S. To Go Off Gold Standard

Washington.—Senator W. E. Borah is preparing a bill to make the United States dollar buy less and by its enactment he hopes to help the farmers and improve economic conditions generally.

Thirty-two nations have gone off the gold standard and we are still on it," Borah said. "That has practically destroyed the hope of our farmers to get a real price for their products. How are you going to remedy that until you remedy the money situation?"

E. D. BATTRUM, Auditor.

Treeless Prairies Will Soon Be A Thing Of The Past As Result Of Forestry Campaign

Extended stretches of treeless prairie are now the exception in Western Canada. Thirty years ago these were common. Since the Canadian Government instituted a tree-planting division in 1901 under the administration of the Department of Interior (recently transferred the work to the Department of Agriculture), a total of 117,225,896 trees have been distributed free to farmers in the Prairie Provinces. Of this total 115,190,070 were deciduous or broad-leaved trees and 2,035,826 were coniferous or evergreen.

Sufficient seedling trees to establish shelter belts have been sent out from the Canadian Government Forestry Stations at Indian Head and Sutherland, Saskatchewan, to as many as 6,000 farmers every year for the past thirty years, or an average of about 4,000,000 trees per year. In addition to the free distribution, millions of trees have been sold in the Prairie Provinces—Manitoba, Saskatchewan and Alberta—by owners of prairie farm homes, which formerly stood out on a somewhat bare and unrelieved landscape, are now sheltered by girdles of stout trees, which not only serve as windbreaks, but help to conserve the moisture and make a decided contribution to the attractiveness of the surrounding area. The trees that are the most popular among farmers in Western Canada are Caragana or Serbian pea, Manitoba maple, ash, poplar and willow. The "treeless prairie" passed into the limbo with many other things about the close of the nineteenth century.

The Holiday Massacre

Appalling Number Of Fatal Accidents On English Roads During Summer

During July and August an average of 17 people were killed every day on the roads of England and Wales. Of the 1,017 accidents responsible for their deaths, less than two per cent. were avoidable. And in over 85 per cent. it was the man and not the machine that failed. Four hundred and fifty-three of those killed were motorists, 406 pedestrians and 192 pedal cyclists in the net of vehicles involved motor cars came first, motorcycles a good second; then motor vans and lorries, closely followed by bicycles. Seventy per cent. of the deaths occurred in towns and built-up areas (a fifth of them in Greater London). Half of the motor drivers involved had over five years' driving experience, but two-thirds of them were between 16 and 29. Twice as many boys were killed as girls. The most dangerous age for children is between four and five, but almost all the children between 13 and 16 were killed while cycling. These grim data are taken from the National Safety First Association's interim report on road accidents during the holiday months—London Spectator.

Domestic Seed Branch

Effective Work Carried On For Benefit Of The Agriculturist

The Dominion Seed Branch encourages the production of superior seeds for domestic requirements and export; performs field inspection of seed crops for purity of variety and certification as to purity of variety and quality; grades all field seeds offered for sale on the basis of control samples or of official samples drawn by inspectors; maintains laboratories for the analysis of seeds, feeding stuffs, fertilizers, blinder twine, insecticides and fungicides; supplies market information and develops the marketing of these products, and of hay and straw which are graded on request administered the Seeds Act, Feeding Stuffs Act, Fertilizers Act, Inspection and Sale Act, and Agricultural Pests Control Act. The branch organization includes four main divisions, and for the enforcement of the Acts Canada is divided into seven inspection districts each supported by a service laboratory.

Means What It Says

"Until death do us part" means something when Prince Edward Islanders stand before the altar. There was not one divorce action in the province during 1932, and only two divorces have been recorded since confederation.

A camera for aeroplane panorama photography registers 270 square miles.

W. N. U. 1978

Bank Washes Money

Handles All Cash Taken In Adjoining Fish Market

There is a bank close to Billingsgate which handles most of the cash taken in that fish market. This bank set apart a room, as a "laundry," where more than 200 pounds of silver received from the market used to be cleaned every night. Attached to almost every coin were scraps of fish and freezing salt, and frequently the money turned green. The coins were boiled several hours in a solution containing washing soda and various chemicals.

Now some fish firms clean their money before sending it to the bank, but nearly all manage to keep coins away as much as possible from contact with the fish. Most of the bank notes, though, that pass through the market are still sent to the Bank of England to be destroyed.

Good News For Dog Lovers

Dread Disease Of Distemper Can Be Prevented and Cured

After ten years of patient research two English scientists have made a discovery which will be welcomed by all dog-lovers. Distemper, the dread canine disease can now be prevented and cured.

That their research involved experiments upon hundreds of dogs may be distasteful to some people but any suffering that may have been caused to these animals is amply justified by the results.

By Ruth Rogers

PRACTICAL UNDIES FOR BROTHER AND FOR SISTER

Easily made. Here you have two patterns—an undershirt and pants for brother. The pants button on to the waist. And an undershirt for sister with bloomers that also button on to the waist.

They require such a small amount of material to fashion them. And simple—well I guess! You could almost run them up before breakfast.

Several sets could be made in a single day of excellent quality fabric that will tub and tub. When you shop—look on the remnant counters, the saving will be enormous.

Battiste, cross-barred dimity, linen, pongee and novelty ribbed cotton fabric are sturdy.

Style No. 848 is designed for sizes 2, 4, 6 and 8 years. It requires 1 1/4 yards 35-inch for either Brother or Sister suit.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

AMY'S WONDERFUL WELCOME AT CROYDON

It must be a hard job for press photographers to keep track of Amy Johnson Mollison, considered to be one of the finest aviators in the British Empire. One day she is in Cape Town, then in Paris, and again in London. Here we see her receiving a wonderful welcome at Croydon, London, at the completion of the round trip to Cape Town and back in record time. With Mrs. Mollison is her husband, Captain Mollison, who also holds several records for flying. In the background between the happy couple is Sir Malcolm Campbell, holder of the world's land record for automobiles.

Turnips Are Popular

Canadian Product Is Favored In Markets Of United States

"Imported" turnips are becoming popular in U.S. menus, according to statistics which have been issued by the Canadian National Railways concerning Canadian turnips.

"By such humble instruments as the turnip, Canada's foreign export trade is being advanced," states the agricultural department of the railway. "Because of its tender quality, the Canadian turnip has been finding sudden favor in markets in the United States as widespread as from New England to Florida and as far west as Texas. During the past year the Canadian National Railways shipped no less than 2,000 carloads or about 1,200,000 bushels of turnips to points in the United States. Refrigerator cars are used exclusively in handling the traffic. These turnips all come from farms in Eastern Ontario and Prince Edward Island, the entire crop of the latter province being sold to the New England and New York markets."

A Famous School

Law School At Dalhousie Produced Three Prime Ministers

The law school at Dalhousie consists of only about one small dark room, with ancient desks on which are curved initials of many of Canada's illustrious men. Around the walls are hanging pictures of the graduating classes. One can pick out no less than three Canadian prime ministers, Sir John Thompson, Sir Robert Borden and Mr. Bennett. Many names are to be found of men who have made their mark in the legal profession, on the bench, in politics and in business across Canada—London Free Press.

White: "Your wife used to be so nervous. Now she seems quite cured." Green: "She is. The doctor told her nervousness was a sign of old age."

PASSENGER: "We can't sit here all day, driver! What are we going to do?"

DRIVER (fed up): "Well, 'ow about making a nice snowman?"—The Humorist, London.

Much Annoyance Is Caused By Heavy Exchange Rates Against Canadian Dollar In U. S.

The Wheat Kings

Canada Has Won Highest Award In Wheat Eighteen Times

Since the contest for the world's wheat championship was inaugurated in 1911, Canada has won the highest award eighteen times. At the last International Grain and Hay Show held at Chicago from November 26 to December 3, 1932, inclusive, 80 of the 85 awards for hard red spring wheat went to Canadian competitors, including the championship won by Herman Treile of Wembley, Peace River, Alberta. The winners of the championship in the past twenty-two years are as follows:—

- 1911—Seager Wheeler, Saskatchewan.
- 1912—Henry Holmes, Alberta.
- 1913—Paul Gerlach, Saskatchewan.
- 1914—Seager Wheeler, Saskatchewan.
- 1915—Seager Wheeler, Saskatchewan.
- 1916—Seager Wheeler, Saskatchewan.
- 1917—Sam Lacombe, Manitoba.
- 1918—Seager Wheeler, Saskatchewan.
- 1919—J. C. Mitchell, Saskatchewan.
- 1920—J. C. Mitchell, Saskatchewan.
- 1921—G. W. Kraft, Montana, U.S.A.
- 1922—R. O. Wyler, Saskatchewan.
- 1923—Major H. G. L. Strange, Alberta.
- 1924—J. C. Mitchell, Saskatchewan.

1925—J. P. Yates, Montana, U.S.A.
1926—Herman Treile, Alberta.
1927—C. Edson Smith, Montana, U.S.A.
1928—C. Edson Smith, Montana, U.S.A.

1929—Jos. H. B. Smith, Alberta.
1930—Herman Treile, Alberta.
1931—Herman Treile, Alberta.
1932—Herman Treile, Alberta.

Russia Issues New Order

Housewives Under 56 Deprived Of Bread and Sugar

On the eve of the end of the five-year plan Russian housewives under 56 learned that beginning with the first of this year they would be deprived of bread and sugar, of which they now receive small rations.

This action, reflecting the food shortage in Russia, is an extension of the government's "no work—no food" policy and apparently is designed to inject more women into industrial occupations with the view to ultimate abolition of the home as the unit of family life. At the height of the campaign which has been waged for several years to draw more women into industry a census of Moscow showed there were approximately 100,000 housewives in the city at the end of 1931. At that time it was estimated the number would be reduced by half at the end of this year. Eighteen per cent. of the 100,000 were over 60.

Grow Oats In China

Canadian Oats Introduced By Missionary May Help To Supplant Rice

Canadian oats have been acclimated to conditions in western China and are being distributed in quantity from West China Union University, Chengtu, a missionary institution, to government experimental farms and to the hill tribes in Szechwan province for 1933 sowing.

The original supply was brought across from Canada eight years ago by Rev. Frank Dickinson, B.A., M.Sc., a Canadian missionary, and tended by him in plot and field every season since.

In the Chengtu plain the staple diet is rice and in the hill country the tribes rely mainly on Indian corn. Under this condition it is considered that the introduction of oats will be of ultimate importance to the diet of large numbers of people. The experiment has not yet reached the commercial stage, but will be watched with interest.

Urges Music Study

Study of music in the schools, not with a view to a professional singing career but as a valuable adjunct to success in salesmanship or in any other line of business endeavour, was recommended in Toronto by Edward Johnson, native of Guelph, Ont., and distinguished tenor of the New York Metropolitan Opera Company.

Canadians are both annoyed and mystified by the treatment their dollars receive in the United States. They know that conditions across the line are much worse than in the Dominion. Also, they are aware that, while banks in the Republic have been collapsing by the hundreds, there is not even a whisper against these institutions in their own country. Of course, the people of Canada realize that this condition is brought about by mysterious agencies such as exchanges and the balance of trade, but these explanations do not satisfy. This question is dealt with sympathetically by the Saginaw (Michigan) News in the following editorial comment:

Canada does not understand but does resent the continuing fall of the Canadian dollar on the New York money market. Apparently it is a sympathetic reaction to the drop in the British pound sterling, accentuated by the war-debt mess. As a matter of fact, though, in the United States financial system has nothing to do with the British system of which it is entirely independent. And Canada has no foreign war debt. It bore the entire and heavy cost of participation in the war through internal loans and internal financing, and owes no other country anything on account of the war.

A Canadian \$20,000,000 internal loan was over-subscribed; no Canadian obligation has been defaulted in the United States; Canada has maintained its export trade at a higher percentage than this country; it has had no bank failures all through the depression; no disorders, no defaulted Government bonds; no element of insecurity for private investment; but it finds its dollar heavily discounted. In the circumstances it is not to be wondered at that the Canadians are puzzled over the problem.

It is an issue which should interest this country because one effect of the decline is further to discourage Canadian buying in the United States. And Canada hitherto has been a very good customer. After all, apart from being a cause of annoyance, this discount on the Canadian dollar does not greatly affect the individual Canadian, if he stays at home. True, it has checked his buying of United States goods, and stopped many little excursions over the border, but this country is not the loser by that condition—Toronto Globe.

Another Unidentified Bird Band

Canadian Wild Goose Is Shot In Princeton, Illinois

Recently the National Parks of Canada, Department of the Interior, received a report stating that a wild goose wearing a band of pink celluloid inscribed "Canada 99" was killed near Princeton, Illinois. Anyone knowing anything about the placing of this band would help materially by advising the Department of the Interior at Ottawa so that the record for this bird may be completed. The Canadian and United States Governments co-operate in banding investigations and in this way much new and valuable scientific data concerning the migration, and of breeding and wintering grounds of birds is being obtained. The use of other than official bands was not encouraged because unofficial bands have a tendency to confuse the Official Records. Information about the free distribution of official bands may be had upon application to the Commissioner of National Parks, Department of the Interior, Ottawa, Canada.

Stream Flow In The Middle West

In southern Alberta, following average to above average run-off in May and June, stream flow has been continuously below normal, averaging only from 60 to 70 per cent. of the average monthly flows from July to October, inclusive, according to records of the Dominion Water Power and Hydroelectric Bureau of the Department of the Interior. In southern Saskatchewan the run-off has been even less and the summer flow, from May to October, inclusive, has had a monthly average only 35 to 55 per cent. of normal.

Whales are to be caught by electricity, which will stun them and cause them to rise to the water's surface, in the White Sea, Russia.

France has been seeking ways for government support of the wheat market.

Coal production in Germany is increasing.

WORLD HAPPENINGS BRIEFLY TOLD

The Free State Department of Education estimates it will take 20 years to make the Free State bilingual to the same extent as Canada.

A Royal Canadian Mounted Police training station is to be established in Halifax. About 25 men a month will be graduated at Wellington barracks.

The hottest day in two summers was recorded at Buenos Aires, when the temperature reached 101.5 degrees Fahrenheit on December 31. One case of sunstroke occurred.

The ending of Soviet Russia's first five-year plan and the beginning of the second plan has been acclaimed at Moscow, Russia, by the Soviet press.

The Ontario Government has placed a herd of elk on a 385-acre reserve near Petawawa, with the intention of ultimately stocking the forests with them.

Dr. W. W. Yen, head of the Chinese delegation to the League of Nations during the past year, was appointed ambassador to Russia by the Nationalist government.

Another of the problems that bother blind folk has been solved. The first cheque ever written in "Braille" has been cashed by the Bank of Manhattan Company at New York.

A collection of portraits of members of all the royal families of Europe is to be left to the British Museum. It has been compiled by Mrs. Thomas Brookelbank, now more than 80 years old.

A bronze bust of Bliss Carman, the poet, whose ashes lie in Forest Hill cemetery in Fredericton, has arrived from British Columbia and will be placed in the library of the University of New Brunswick.

Eyes and Nervous Strain

Trying To See In Bad Light Causes Waste Of Energy

Your whole body wastes energy when your eyes are strained by trying to see in bad light, reported Doctor M. Luckless and Frank Moss at a session of the American Association for the advancement of science. Nervous muscular tension of a man reading a book increases or decreases in direct proportion to the amount of light falling on the book.

A possible aid to study of cancer, discovery of the organism that apparently plays a leading part in producing cancer in plants was described by Dr. Michael Levine, of Montefiore Hospital, New York.

The organism he has isolated seems to be what causes cells of a plant to multiply rapidly and produce a tumor. Human cancer results from a similar abnormally fast growth of cells, but the organism that causes it is not known.

Study of how the organism works, said Dr. Levine, may throw some light on the cancer problem in general.

Unusual Law Suits

Judge In Scotland Puzzled Over Case About Bees

Because a swarm of bees alighted on the land of Henry Gow, of Dunfermline, Scotland, Peter Coutts has twice sued Gow. The first time he asked Coutts for the value of the bees. At the end of the honey season he demanded the price of honey which he said he would have had if Gow had sent the buzzers home. Gow claims that in their first season in a new home bees do not produce honey so that he really is out the cost of feeding them. The puzzled judge postponed the case to think it over.

Perfect Book Is Short

Opinion Given By Prince George In Address At London

Prince George functioned as a book-critic for a few moments when he addressed the Incorporated Society of Authors, Playwrights, and Composers at London recently, and formulated his ideal of the perfect book.

"I think," he said, "most people feel that books should be short. Most of us have only odd moments to read, and we want information or entertainment in a form that we can grip as quickly as possible."

Idea Did Not Work

Stewards on the "Empress of Britain" had arranged to get George Bernard Shaw's signature to sell to autograph seekers. When one purchases drinks in the Cathay lounge one signs a bill. The stewards intended to pay for the drinks themselves and keep the bill—until they discovered Shaw was a teetotaler.

W. N. U. 1976

THE PRINCE PURCHASES SPEEDIER CRAFT FOR HIS JAUNTS

Our picture shows the Prince of Wales in the usual informal dress in which he makes his flights, while in the background is a photo of the new "Foxmouth" he has purchased for his private use. The machine is fitted with a 180 h.p. Gipsy Major engine, has a continuous cruising speed of 110 miles an hour. It is a similar type of machine to that which won the King's Cup Race around Britain last July. Painted in royal blue and dark red, colours of the Household Brigade, the machine is reported to be the acme of perfection.

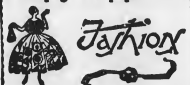

Business For Coast Province

B.C. Likely To Increase Apple and Lumber Exports To Britain

British Columbia should reap important benefits from the new trade agreement between Canada and Germany. Provincial plants should obtain a share of the \$1,000,000 increased market for wood pulp with Germany and the B.C. apple market should be considerably enlarged.

British Columbia may increase her lumber exports to the United Kingdom during the coming year to 152,000,000 feet. This compares with 87,000,000 feet shipped during the past year, a gain of more than 70 per cent, or treble that shipped in 1931, when 50,000,000 feet created a record.

SCHOOL WEAR THAT IS CHIC AND SO LOVELY WITHOUT A COAT

A lovely sheer woven in brown tweed mixture because Paris has made it so popular, is chosen by the smart junior for her coat-like dress. The trim is plain orange-red as are the buttons and belt buckle. Besides woolen, firmly woven cottons, rayon novelties and linen can be used for this dress. And it needs no telling how simple it is to fashion it. The small coat is really amazing. Style No. 989 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards of 36-inch material with 1/2 yard of 36-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap carefully.

Recipes For This Week

(By Betty Barclay)

LEMON MINCEMEAT

- 4 lemons.
- 2 apples.
- 1 pound currants.
- 1/2 cup raisins.
- 1/2 cup chopped nuts.
- 1/2 cup melted butter.
- 2 cups sugar.
- 1 teaspoon salt.
- 1 teaspoon ground cinnamon.
- 1 teaspoon ground nutmeg.
- 1 teaspoon ground cloves.
- 1 teaspoon ground ginger.
- 1 teaspoon ground allspice.

Squeeze juice from lemons and cook peel until soft. Put through meat-chopper and then rub through a sieve. Add chopped apples and remaining ingredients, mix well and store in jars. Use as a filling for turnovers and pies.

SHREDDED WHEAT CREOLE

- 6 shredded wheat biscuits.
- 3 cups hot meat stock.
- 2 tablespoons bacon fat.
- 2 tablespoons minced onion.
- 2 eggs.
- Salt and pepper.
- 2 tablespoons tomato catsup.
- 2 tablespoons minced green pepper.
- Crumble shredded wheat biscuit and cook until thick in boiling meat stock. Mix with bacon fat, onion, pepper, beaten egg yolks, seasoning, and catsup. Fold in stiffly beaten egg whites. Turn into a buttered baking dish and bake (30 minutes) in a moderate oven (375 degrees Fahrenheit). Serve hot with grilled tomatoes, 6 portions.

Potash in commercial quantities is being recovered from the Dead Sea.

Tax Refunds

U.S. Government Refunds Huge Amounts On Income Tax

That very pleasant feeling you get when you find you have been overcharged and get some of your money back has come to thousands of individuals and business houses.

The United States government refunded \$80,583,664 last year, all because taxpayers, through some error, paid too much money in that or in previous years.

Several refunds amounted to more than \$1,000,000. The United Fruit Company of Boston got \$2,950,000, the largest. The sum of \$2,189,000 was returned to the Lehigh and Wilkes Barre Coal Company of Pennsylvania.

Douglas Fairbanks, movie star, had \$218,000, and Roman Novarro got back \$7,604.

Measure Nature's "Jitters"

Scientists Learn How Water Makes Steam, Or Coal Heat

Measuring old Mother Nature's "jitters," a trillion times worse than the worst stage fright, is science's latest way of learning how water makes steam, or coal makes heat.

It's done by measuring the energy in a single "jitter" or vibration of a molecule, which was described before the American Association for the Advancement of Science. If the jitter get strong enough, the molecule's atoms will fly apart and combine again in a different formation, which is what happens when fuel burns or liquid turns into a gas.

English bellingrings held a convention in London recently.

France produced 892,410,000 gallons of wine in 1928.

+ Do You Know? +

Photograph, Canadian National Railways

THAT what is believed to be the only monument in the world erected to the memory of the commanders of opposing armies is the Wolfe-Montcalm Monument to General Wolfe, the victor, and General Montcalm, the vanquished, commanders respectively of the British and French armies in the decisive battle of the Plains of Abraham? The inscription on the monument reads: "Their valor gave them the same death, history the same fame and posterity the same monument." It is located in Quebec City.

Strong Annual Statement by Royal Bank of Canada

Total Assets Stand at \$765,512,920—Of This Amount Liquid Assets are \$355,929,912, Equal to 52.86% of Liabilities to the Public—Included Therein are Cash Holdings of \$164,630,724, Being Over 24% of Public Liabilities—Savings Deposits Well Maintained.

The annual statement just issued to shareholders of The Royal Bank of Canada supplies further striking evidence of the satisfactory manner in which leading Canadian financial institutions have passed through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Curtailed industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained, particularly in face of the large Government plans put out during the year. Earnings, due to lessened business activity throughout the country, show a slight recession, but were amply sufficient to cover dividends and the usual appropriations.

Strong Liquid Position

The statement, which is for the financial year ended November 30th, shows total assets of \$765,512,920. Of this amount, liquid assets, equal to the large sum of \$355,929,912, amount to 52.86% of all liabilities to the public. Cash holdings, aggregating \$164,630,724 and forming one of the striking features of the report, represent over 24% of liabilities to the public.

Dominion and Provincial Government securities stand at \$39,448,844, compared with \$8,473,053 at the end of the previous year, and Canadian municipal securities and British, foreign and foreign public securities \$26,750,444, up from \$24,641,816.

The various loan accounts reflect current business conditions, and are down substantially from the previous year. Commercial loans now stand at \$360,262,286, against \$418,345,043, at the end of the previous year. Loans reduced to \$28,951,263 from \$39,317,268, and call loans elsewhere to \$36,000,000 from \$47,156,111.

Reduced import and export trading accounts for the reduction in Letters of Credit to \$20,092,951 from \$28,966,506.

Deposits at Satisfactory Level

Deposits have been well maintained. Total deposits at \$619,092,143 show a reduction for the year of less than 7%, from \$664,795,718. Savings deposits make a very gratifying showing, and at \$468,391,183 are down less than \$5,000,000 in view of the large Government loans floated during the year, the total would indicate a tendency among depositors to keep ample cash balances and to add steadily to their savings. Non-interest deposits, which in the main are the working balances of business and farming customers, reflect the curtailment of trade activity and show a reduction from \$128,983,165 to \$170,913,803.

Shareholders will be interested in seeing that the reduction in letters of credit has more than offset the reduction in commercial deposits. At the same time, the reduction in letters of credit means that just as soon as trade recovers the bank is in a position to take care of the increased requirements of its customers.

Earnings have held up well, especially in view of the lessened business activity and the low interest rates at reserve centers. Profits for the year were \$4,861,849, compared with \$5,448,327. They fully covered loan requirements of \$3,850,000, contribution to Officers' Pension Fund \$200,000; appropriation for bank security \$200,000; and reserve for Dominion Government taxes \$600,000.

For a number of years the bank has carried an unusually large amount in investment depreciation reserve. This will be regarded as a conservative move, strengthening as it does the inner reserves of the bank to this extent and leaving \$1,166,854 to be carried forward to credit of Profit and Loss Account.

SUNDAY SCHOOL LESSON

JANUARY 15

JESU'S AT WORK

Golden Text: "My Father worketh even until now, and I work."—John 5:17.

Lesson: Mark 1:21-45.

Devotional Reading: Isaiah 61:1-6.

Explanations and Comments

Jesus' Authoritative Teaching. Verses 21, 22. With His four disciples Jesus went to Capernaum and on the Sabbath entered and taught in the synagogue. In the synagogue worship after the recitation of the Psalms (Psalm 6:4-8; 119:21), and the prayer, a lesson was read from the Law (Pentateuch) and another lesson from the Prophets. There was no permanent preacher, and it was customary for the chief ruler of the synagogue, who had charge of the services, to ask a distinguished visitor to explain the lessons. Upon this occasion he called upon Jesus for this service. As the people listened to Jesus they were amazed at the tone of authority with which He spoke, so unlike the scribes who constantly made some great name of the past as the authority back of their words. Recall the phrase so often repeated in the Gospels, "I say unto you." The highest praise for a scribe was that he resembled a combed clasp, which let no drop of water put into it. He was bound never to teach otherwise than as he had been taught. Christ as a teacher was not a clerk but a spring, clear, abundant, and perennial.

"Whence came this authority? Undoubtedly from God, whose beloved Son and personal Messenger He was. But on the human side we find three things in the teaching of Jesus which are sources of power.

"First, knowledge; direct, real experience of God. Second, sincerity; the straight and simple utterance of a heart loyal to the truth. Third, love.

"We need more of these three things if we desire, as followers of Christ, to speak with authority." — Henry Van Dyke.

Jesus' Authority Over Demons. Verses 23-28. There are six cases of demon-possession described in Mark 9:17 and in Matthew 9 and 12. There is a reference in Luke 8:2 to the cure of Mary Magdalene, and there are general references to many demonized ones, as in verse 24 of our lesson text. Today we speak of such cases as insanity, epilepsy, drug, dullness, or nervous trouble.

Score For Doctor Koo

Yusuke Matsuo took the League of Nations that Japan regarded a boycott as worse than a military attack, to which Dr. Wellington Koo replied that if that were true, China would much prefer that Japan boycott her goods than invade her country with a sword, as we see it, the doc won that one.

Score For Doctor Koo

Yusuke Matsuo took the League of Nations that Japan regarded a boycott as worse than a military attack, to which Dr. Wellington Koo replied that if that were true, China would much prefer that Japan boycott her goods than invade her country with a sword, as we see it, the doc won that one.

Score For Doctor Koo

The common garden mole has eyes, but they are very small and sunken almost beneath the skin. China expects a construction boom.

A Remarkable Achievement

Great Improvement Is Shown In Producing Bacon Type Of Hogs

A statement recently issued by the Sheep and Swine Division of the Dominion Department of Agriculture with respect to Canada's bacon hog industry observes:

"When the complete hog grading statistics for the year 1932 are available, it will show that our total hog marketings of the year over 2,500,000 market hogs sold for slaughter under the Hog Grading Regulations throughout the Dominion will have graded as either select bacon or bacon. The above figures are a record for the industry, and the hog raisers of the Dominion. It means that Canada, in a period of a little over ten years, has revamped her swine industry, creating as the backbone of the industry an ample supply of breeding stock of select bacon type with feeding and productive qualities which place our best hog raisers in the front rank of type, quality and economic production."

Club Work Effective

Points Which Should Receive Special Attention In Connection With Boys' and Girls' Swine Clubs

Five points which receive special attention in connection with Boys and Girls' Swine Club work in the carrying out of which the federal and provincial Departments of Agriculture co-operate are detailed as follows:

1. The location and distribution to club members of young pigs of good bacon type and breeding. Of these, many of the best females are kept over for breeding purposes.
2. The giving of practical instruction to club members at their homes or through lectures at club meetings.
3. The distribution of printed or mimeographed information regarding the breeding, feeding, management, judging and marketing of swine.
4. The arrangement and conduct of judging and other forms of demonstration.
5. The securing of good bacon type boars for club districts.

Find Canibal Snail

E. A. Marchant of Wanganui has discovered a giant "canibal" snail in the mountains of the North Island of New Zealand. Marchant placed four of them in a box, with some fresh vegetation for food, but when he opened the box found that the biggest had eaten the others.

More than 1,110,000,000 national savings certificates have been sold in Britain.

Belfast, Ireland, has a campaign to reduce school study programmes.

Experiments Show Life Impossible
Above 50,000 Feet

Only poets can soar with safety
into untold heights.

Important experiences recently carried out by Sir Leonard Hill, director of research at the London Light and Electrical Clinic, show that there are very definite limits to which mere man can ascend and live.

In conversation with a reporter, he placed these safety limits as:

Airmen and climbers breathing the surrounding air—20,000 feet (about 3 4-5 miles).

Airmen breathing supplies of oxygen—50,000 feet (about 9 1/2 miles).

In both these cases it is assumed that the subjects are exposed to the surrounding air pressures. If, as in the case of the Swiss Professor Piccard recently, the ascent is made in some form of sealed container where in pressure and oxygen supply can be maintained at normal levels, the height which can be attained is limited only by the ascending power of the apparatus.

The greatest height so far recorded by an airman was that attained recently over the Severn Valley by Captain Uwins, who flew to 44,000 feet with the help of oxygen supplies and an electrically heated suit. Professor Piccard's altitude in his sealed container was 53,722 feet. Sir Leonard Hill is of opinion that no living thing as we know it can exist indefinitely above 28,000 feet, and that the summit of Mount Everest (29,000 feet) is therefore completely barren to life.

In the course of his experiments Sir Leonard watched the effect of emptying a steel chamber filled with oxygen in which animals had been placed. Their behaviour was observed through a glass window.

A monkey went to sleep when the density of the oxygen was roughly one-sixth of that of air at the earth's surface; a goat began to die in a seventh density; and other small animals were more enduring.

Drowsiness was in every case the first warning of danger. With increasing rarity signs of convulsions due to stoppage of lung action began to appear, whereupon in all cases oxygen was restored to the chamber and the animals completely recovered.

System Takes Time

Telephone Operators In Province Of Quebec Translate Conversations

If you can't speak French and the other person can't speak English, don't be discouraged, for the province of Quebec telephone operators can right matters. To remove the language barrier on out-of-town calls, the first step is to tell the operator what you wish to ask the other person. She then translates and upon receiving the answer translates it back to you. The system takes time, but satisfaction results.

Workers Read "Deep Books"

More "deep books" are borrowed by stenographers, waiters, factory workers and clerks than by their bosses. The latter—if they take out books at all—are inclined to detective on adventure stories. That's what Charles H. Compton, assistant librarian of the St. Louis public library says.

TIRED AND IRRITABLE?

Take Lydia E. Pinkham's Vegetable Compound

It steadies the nerves and helps to build you up. You will rest better... sleep better... look better. Life will seem worth living again. Remember that 98 out of 100 women say "It helps me." Let it help you too. Liquid or tablet form, as you prefer.

V. N. U. 1976

Heavy Gold Shipment

Early In War \$96,000,000 Taken From Vancouver To Ottawa

Britain's debt to the United States, \$95,500,000, may seem a lot of money to change hands at one time, and it is, but there are men in Montreal who can remember a larger gold movement than that, and a longer one too.

It was during the early years of the war, according to J. R. Martin, manager of the foreign department of the Canadian Express. The then Dominion Express was given an order to move \$96,000,000 from Vancouver to the Royal Mint vaults at Ottawa. There were 13 cars on the bullion train, nine of them held gold and four guards each. The others were supply cars, carrying relief guards and officials. The whole trip was made in 90 hours, with stops only to change engines.

The train was given precedence over everything else on the Canadian Pacific Railway. With men riding on the cow-catcher, armed with saw-ed-off shotguns and revolvers, it was probably this train that started the rumor that a Russian army corps had been transported across the Dominion.

There were succeeding heavy gold shipments, one of \$88,000,000, and many ranging between \$100,000 and \$200,000. All told, during the war probably between \$1,250,000 and \$1,500,000,000 was moved, Mr. Martin said.

Boon To The Blind

Inventor Working On Idea For Books That Talk

Books that talk for the blind are not beyond the realm of possibility, according to Glenn E. Watson, Detroit inventor.

Watson, who demonstrated radio typewriting two years ago, is developing a plan whereby the light waves from a page of printing may be translated into radio waves for transmission into sound.

The plan, he said, could be worked out something like motion picture talkie reproduction powers.

Pointing to the benefits of his plan, once it is developed, the inventor said a blind man has little choice in his reading.

"Everything he reads," Watson said, "is censored by the publisher of Braille books. He can't read the newspapers. He has to go to a library for Braille books every time he wants to read."

The inventor has completed a rough model of his talking book.

Discover New Star

Has Been Sought By Astronomers For 412 Years

Out in space a gigantic pin wheel of two balls of fire as big as 24 suns has been discovered. It is whirling at the rate of about 34,000,000 miles an hour in a space only about as wide as a fifth of the distance between sun and earth.

The results of 312 years' observations which have proved the existence of this firework's monster were reported to the American Association for the Advancement of Science by Prof. Raymond E. Dugan, of Princeton University.

The pin wheel is the star SX Cassiopeia, so distant that even in a telescope it is just a pin point of light to a man's eye. This star is really twins, one whirling about the other, one sixteen times the sun's diameter, and the other eight times.

Canada's Trade Position Good

Toronto Globe Says Dominion Faces Future With Courage

Canada faces the future with courage and in a sound national position the Toronto Globe said in its annual financial and trade survey. Canada has met all her financial obligations, has no war debts except to her own people and leads the world in production of printing paper, nickel and asbestos the review adds.

Canada holds second place in world production of gold, platinum and cobalt, third in production of wheat and zinc, and fourth in production of automobiles, copper and lead, the review continued.

Cellophane Wrapped Grapes Flaming red and purple Tokay grapes from Lodi, California, will go to eastern markets this winter wrapped in cellophane. Wrapping the bunches in cellophane heightened the color of the grapes as serves as a preservative.

Credits extended from the British Boxer Indemnity fund are expected to make possible the completion of the Canton-Hankow railway line in China.

HER FAT WAS A BURDEN

Now She Is Quite Slender

Here is another case where the trim slim figure of youth has displaced the coarse, fat outline of middle-age. It is a housekeeper writing. She says:—

"I cannot say what weight I was, but I was very fat—a burden to myself. I have taken three bottles of Kruschen Salt and now I am quite slender. I am 56 turned and people take me for 40. I am more than proud of myself. You can take it from me that every word of this is true. I took a teaspoonful in hot water every morning till I used three bottles. Now I only take half a teaspoonful each morning. I cannot recommend the Kruschen Salt enough, for they are worth their weight in gold."—(Mrs.) A. H.

For generations, wealthy overweight people have been visiting those European Spas whose waters are recognized for their reducing effect. It is called "taking the cure." Now the formula of Kruschen represents the ingredient salts of the mineral waters from those far-famed Spas. These salts combat the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue.

Hobby Proves Valuable

Ottawa Airman Makes Living Out Of Talent For Whittling

Things looked bad a few months ago for A. B. Abbott of 22 Bower Street, Ottawa, but he has whittled his way out of the depression. Discharged from the Royal Canadian Air Force when the government cut staffs, he was left without resources and with an expensive house he had built himself.

He had a hobby, whittling. Ever since he was a boy in Picton, N.S., he had whittled little wooden statuettes just for the fun of it. He started whittling in earnest, making caricatures of human types on Canada's Atlantic Coast, images of Indians, getting the costumes right by studying specimens in the National Museum of Canada, at Ottawa, and model totem poles.

The things sold well in Canada and in the United States. Abbott wonders if he couldn't find one or two other whittlers who would join him in forming a small whittling industry. He can't fill all his orders himself, he said.

Vatican Prizes Old Atlas

Ancient Greek Maps One Of Treasured Possessions In Library

After thirty years' work, which Father Faber of the Society of Jesus has superintended, the Vatican Library has published a magnificent edition of the oldest atlas of western geography. It is a faithful reproduction of the Greek Codex by Claude Tolomeus.

The collection, which dates from the 11th or 12th century of our era, is one of the most treasured possessions of the Vatican Library.

The atlas is bound up in four volumes, the first containing photographic reproductions of the most ancient maps.

Observed Old Custom

Parishes At Knightlow Cross, England, Pay Silver At Dawn

Just before sunrise the annual ceremony of collecting wroth silver payable to the Duke of Beuchef and Queensbury was observed at Knightlow Cross, England, recently. Twenty-eight parishes in the Hundred Knightlow were "called," and their representatives placed their contributions in a hollow in the top of an ancient stone, amounts ranging from two cents to 55 cents.

Taking No Chances

He was very hungry, so he pushed open the swinging doors of the restaurant and entered. It was a rough, ill-smelling place, but he thought he would try a cup of coffee and something to eat. The waitress brought coffee in a thick, heavy cup. "Where's the saucer?" inquired our fastidious friend. "We don't give 'em saucers here," replied the girl. "If we did, some ill-bred ignoramus would drink out of his saucer, and we'd lose a lot of our sweetest customers."

One of the most extensive natural basins of the earth is the Hudson Bay basin of Canada with an area of 1,500,000 square miles.

China's 1932 rice crop was the largest in several years.

Steel products in Britain expect an early business improvement.

London has an ice-skating craze.

Great Slave Lake

Second Largest Lake Lying Entirely In Canadian Territory

Lying in the district of Mackenzie in the North West Territories is Great Slave Lake with an area of 11,470 square miles. It is the second largest lake lying wholly within Canadian territory, being exceeded in size only by Great Bear Lake. It is on the great northern inland waterways system which extends to the Arctic Ocean. Mackenzie River which flows out of Great Slave Lake has a length to its headwaters of over 2,500 miles and is ranked with the great rivers of the world. It is navigable for a great part of this distance with only one break at the rapids on Slave River at Fort Smith.

The elevation of Great Slave Lake is 480 feet above sea level and the Mackenzie River in its course to the Arctic has a fall of that amount, this fall being in the main fairly uniform. The Topographical Survey, Department of the Interior, Ottawa, has just issued a reprint of the map of the eastern end of Great Slave Lake and including the Northern arm. This arm of the lake is largely full of islands and peninsulas and extends to the site of Fort Reliance at the mouth of Lockhart River. Several navigation channels are in use and these are shown. This map is one of a series showing the Mackenzie River Navigation channels. They are printed on scales of four and six miles to one inch and include the water route from Fort Smith to the Arctic besides several other localities not on the direct navigation route. A list of the maps available and their prices may be obtained from the Department of the Interior, Ottawa.

THE RHYMING OPTIMIST

By Alice Michalco

MINUTE BY MINUTE

Minute by minute,
That's how life should go;
Fresh every morning,
All the brave world's show!

Joy with the sunrise
Creeping in at dawn,
Forth when the stars shine.
After day is gone.

Nothing of folly,
Naught of fret or fear,
Courage for keeping
In the now and here!

Leave for tomorrow
All tomorrow holds,
Tough not the curtain
That the future folds.

Minute by minute,
Opening to our eyes
Petals by petals
All the glad world lies!

No Wheat Needed

Latest Information Says Russia Not Importing This Season

Soviet Russia will not be forced to import wheat this season, Col. J. H. Mackie announced at Ottawa, as the opinion of Peter Bogdanov, chairman of the Amtorg Trading Corporation, Russia's commercial organization in New York. Col. Mackie has been prominent in recent years as an intermediary between Canadian and Russian industrialists.

"I discussed Russia's wheat supply with Col. Bogdanov a few days ago," says Col. Mackie. "He said his latest information was that wheat collections in Russia during the past month were above expectations and that his opinion was Russia would not be forced to import wheat."

Winter Air Travel

Air travel from Germany to Russia for the first time will be continued through the winter, according to a recent announcement by the German Russian Air Transportation Company. Effective December 15, the Berlin-Moscow service is being operated daily for the carriage of passengers mail and freight.

It has been learned unofficially that the Japanese government has communicated to the Soviet Government a formal refusal to sign a non-aggression pact with Soviet Russia proposed by this government a year ago.

Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

Little Helps For This Week

"Bear ye one another's burdens, and so fulfil the law of Christ." — Galatians 6:2.

There are those who take what they can get.

Then peer around for more: Who save and stint, and dwell content. Behind a miser's door.

There are those who give with generous hand, And seek to give still more; The sick and sad, the poor and low, Find welcome at their door.

— Greenville Kleiser.

However perplexed you may at any hour be about some question of truth, one refuge and resource is always at hand; you can do something for someone besides yourself. When your own burden is heaviest you can always lighten a little some other burden. Let this thought then stay with you; there may be times when you cannot find help, but there is no time when you cannot give help. — George S. Merriam.

Canada's Fish Production

Saskatchewan and Yukon Kept Up Record In 1931

During 1931 fish production in Canada showed a decrease in every province except in the Yukon and Saskatchewan. On December 30, 1932, there had been an increase in domestic fishing licenses to the extent of 346 over the corresponding period of the previous year. The natural resources department is continuing the work of stocking certain of the more suitable lakes of Saskatchewan with angling species of fish. During the season seven lakes chiefly in the Cypress Hills region, were stocked with trout; 25,435,508 fish and fish fry were distributed during the year.

New Metal Discovered

Feather-Weight Substance May Displace Use Of Aluminum

Scientists believe that in beryllium, a feather-weight metal which is stronger than steel, they have discovered a substance which will displace aluminum in many branches of industry.

Intensive experiments are now being conducted by the Institute of Metals to test its usefulness.

The objection to its general use so far in its brittleness, but experts are hoping to blend it into an alloy which will make its use practicable for all the commercial purposes to which aluminum is now applied.

Science Scores Again

Success in causing kidneys to grow and in its brittleness, but experts are hoping to blend it into an alloy which will make its use practicable for all the commercial purposes to which aluminum is now applied.

About 1,500,000 documents are stamped in government offices in London every day.

French industry is much disturbed over threatened tax increases.

Winter Cruise Shortened

S.S. Vancouver and S.S. Skeena Curtail Trip To Save Expense

In the interests of economy the annual winter cruise of H.M.C.S. Skeena and H.M.C.S. Vancouver have been curtailed, says a message received from naval headquarters in Ottawa. The cruise will be cut short by a month and the ships will not go through the Panama Canal.

They will visit Pacific coast ports as far south as Mazatlan, in Mexico, and will return to their base in Esquimalt during the first week in April. They left the Victoria naval harbour January 6.

No more dusting for me!

at least not with old-fashioned dust cloths. I've found a better way.

Thousands of Canadian women know that her "better way" is the Wonder Paper. Made from clean rag and soft paper pulp scientifically treated with high-grade furniture polish, it dusts—as it cleans—as it polishes.

Wonder Paper is changing the old-established order of housecleaning. One neat package of it appeals more to women than yards of old rags that spread dust and constantly need washing to be sanitary.

You get twenty-five sheets of Wonder Paper for a quarter. Simply crumple a sheet into a soft wad, go over the furniture, woodwork, and the floors. The results are a delight. In half the time and with half the effort, you get a necessary task done far more satisfactorily. And when you're through, throw away the piece of Wonder Paper. No shaking out, or washing, of dusters. Certainly you ought to try Wonder Paper.

Special Offer
WONDER PAPER is made by the makers of the famous PARASANI, the Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, just send this coupon and we'll give you a box of the new "Leftovers", containing one hundred recipes, as a bonus.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one package of the Wonder Paper and your 100 recipes for "Leftovers".

Local News

Dance and whist drive every Saturday night in the L.O.O.F. Hall; see advt. in this issue.

Constable Henderson, R.C.M.P., of Blairmore, has been appointed for duty in Coleman.

Marie and Virginia Olsen of Midnapore spent Christmas holidays at the home of Mrs. Nielsen.

Gerald D. Brophy, district passenger agent of the C.P.R., Calgary, was a business visitor in the Pass towns last week.

Coleman Girl Guides were entertained at a social evening in the Catholic parish hall on Monday evening by the Girl Guides Association, which proved a very enjoyable affair.

Coleman curlers attending Fernie hospital include J. A. McLeod, H. C. McBurney, W. L. Rippen, Fred Antrobus, Sam Moore, Ed. Ledieu, J. S. Appolonia.

Some exceptionally fine water-color paintings and pen and ink sketches were made by Alphonse Therien in an autograph album owned by his sister Lillie, who is attending school here. Alphonse has been working at Corbin for some time.

Constable F. A. Amy, R.C.M.P., who has been stationed here for a few months, was transferred this week to Bow Island. He carried out his duties here in a capable manner, and the good wishes of his friends follow him in his new appointment.

The Girl Guides attended service in St. Paul's United church on Jan. 8th under Mrs. R. F. Borden, captain, and appreciated the address of Rev. Roy Taylor, who spoke on the ideals of the Guide movement. His address was of interest to all young people.

A meeting of the Executive of the Citizens League of the Pass towns was held on Jan. 11 in the office of J. E. Gillis, Blairmore. Municipal elections were under consideration. The following day a meeting of Blairmore citizens was held to consider nominations.

UNITED CHURCH NOTES

The minister will have charge morning and evening next Sunday, Jan. 22. The junior choir will lead the singing and the sermon will be on the topic "The Challenge of the Deep."

The evening worship will begin at 7 p.m. The singing will be led by the senior choir. The sermon will be on one of Jesus' great questions "What think ye of Christ?" The messages for next Sunday will be of help and inspiration. You are most cordially invited to come and worship. Let us make a very great effort to sustain the interest and the numbers at the services by our presence. Strangers and visitors will be made welcome.—Rev. Roy C. Taylor, B.A., B.D., Minister.

RAMBLERS AND CYCLOES ARE RIVALS IN JR. LEAGUE HOCKEY

The Ramblers played against Hillcrest Cyclones at the latter town on Jan. 2, the Ramblers winning by 5-3. Joe Jenkins and J. Troitz each scoring two, and J. Andros one. The Cyclones scoring was by Bob Cruickshank in the third period, two goals, and one by Dameco.

On Jan. 4 the return game was played at Coleman, when the Ramblers again won by a score of 5-3. In the first period Andros scored on a pass from Troitz; he also scored on a pass from Pardell. Joe Troitz on a pass from Andros scored just before the bell rang at the close of the first period, making it 3-0.

In the second period Andros scored on a pass from Haluck; R. Letcher scored for Hillcrest on a pass from centre, making the period 4-1 for the Ramblers.

In the third period both teams played their best and Hillcrest's score was added to by J. Ellick. Ramblers came back with a goal by Andros on a pass from Troitz, and B. Richards of Hillcrest added the third goal for Hillcrest, making it 5-3 for Ramblers. The line-up:

Hillcrest: Petrie; Ellick, Richards; A. Bianchini, Dameco, Letcher; Draper, T. Dameco, Ferstay.
Ramblers: T. DeCocco; Janostak, Pardell; Troitz, Andros, Jenkins; H. Setla, Ferby, Mahovich, Haluck, M. Cousins.

MISCELLANEOUS

An important date—April 8. Keep it open for the L. O. B. A. annual bazaar, and watch for announcement.

Tony DeCocco, who was injured in an accident prior to Christmas, is making good recovery.

Local Welsh people will meet in the R. of P. hall on Sunday, Jan. 21, at 3.30 p.m. to organize for St. David's Day, March 1. Those interested, kindly attend.

Valentine Tea

The Ladies Auxiliary of St. Paul's United Church will hold a Valentine Tea, Pantry and Parcel Sale, on Saturday, Feb. 11th, from 3 to 6 p.m. Everybody welcome.

ANNOUNCEMENT

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, on

Wednesday, January 25th

Anyone wishing to consult him with regard to eye, ear, nose or throat or to be fitted with glasses, please make appointment with Dr. Stewart.

Letter to the Editor

(The editor is not responsible for opinions expressed in letters to The Press, and reserves the right to reject any communication submitted. Publication must not be taken as an endorsement of opinions or policies.—H. T. H.)

January 18th, 1933

Dear Sir—

I wish to correct through the columns of your paper, a statement that has been circulated by Mr. Frank Baringham, a member of the Coleman School Board, to the effect that he was instrumental in getting a considerable reduction in the insurance rates on the School. As this statement was publicly made before a meeting of the Coleman Miners Union last Sunday, I wish to give the ratepayers the true facts of the matter. The insurance rates on the Coleman Schools are the same today as they were when Mr. Baringham became a member of the School Board and any ratepayer may check the books at the office of the Secretary to verify my statement.

I wish to take this opportunity of protesting to the present School Board for transferring the insurance on the West Coleman School which I have been carrying since the school was built, to another agent, and Mr. Baringham is trying to justify his conduct in the matter, by trying to hoodwink the ratepayers by making statements which are incorrect.

On October 9th last I renewed \$200,000.00 insurance on the West Coleman School for three years, premium \$260.00. This policy was returned to me with a letter stating that this insurance was being placed with Mr. Snowdon, Mr. Snowdon issued a policy for the same amount and the same rate and was paid the premium of \$260.00. When public officials make a statement they ought to know what they are talking about.

A. M. MORRISON.
